

Interim Administrator Community Meetings

Burrawang/Wildes Meadow – 4 November 2021

Issues raised	Response
<p>Progress of the Southern Regional Livestock Exchange – is it being held up because of the fire plan?</p>	<p>To allow the contractor to gain a construction certificate to start work, the original fire service needs to comply with today's standard which it currently does not. A full design has been undertaken and must be signed off by New South Wales Fire Brigade. The unique structure and renovations have not made it a straightforward design but Council is working to have this rectified as soon as possible.</p>
<p>Request for details of infill development</p>	<p>Manager, Strategic Land Use has been in contact with resident to provide documentation.</p> <p>Council's <i>Local Housing Strategy</i> is provided here for further information.</p> <div data-bbox="884 1111 935 1173" style="text-align: center;">  </div> <p>Wingecarribee-Local-Housing-Strategy-Ver</p>
<p>Development Application – concerns raised by resident to lack of communication from Planning Department</p>	<p>Council has been in contact with resident to assist in resolving issues.</p>
