

Interim Administrator Community Meetings

Renwick - 23 November 2021

Issues raised	Response
Proposed Bus stop for Renwick especially for school children – can it be raised at Traffic Committee also address traffic speed on Renwick Drive (police).	Council has spoken to resident regarding the Traffic Committee and provided details of the process and information. The works are part of the Development Conditions for the sub-division and will be completed by the Developer.
Update on what is happening with Old South Road	Council is currently liaising with Transport for NSW regarding design and funding and an update is expected in late January 2022.
Concern for lack of facilities for young people eg skate park like skate park – (IA advised there is a report Community and Recreational Facilities Strategy will be reported at tomorrow’s Council meeting	Report on <i>Community and Recreational Facilities Strategies</i> reported to Council on 24 November. Copy provided below.  Council report.pdf
Project for Mittagong and Bowral bike track – no updates received	Staff contacted the customer and left a message for a return call on 25 November to discuss the project as there is no bike track currently proposed. Staff have had no response from the customer. A shared use path has been incrementally constructed along Mittagong Rd / Bowral Rd over the past few years to complete a link from Cliff Street to the railway bridge, but this would not be described as a “bike track”. The Bicycle Strategy for Mittagong, Bowral and Moss Vale (2008) references linkages between Mittagong and Bowral as part of a 10 year program (2008 – 18) but much of this work has not eventuated due to budgetary restrictions and possibly technical difficulties. A review of the pedestrian access and mobility plan (2014) and the bicycle strategy (2008) is planned to update and inform future programs.
