KOALA HABITAT GRANTS

Community Info Sessions

Koala habitat restoration grants are available for Wingecarribee property owners to improve or create koala habitat on their land.

The Wingecarribee Shire is home to 10% of the NSW Koala population and the *Southern Highlands Koala Conservation Project* has been working with the community to help protect our koalas since 2014.

Come along to one of our information sessions to find out about what options may be available to you!
