## Burial Allotments

- a. The selection of allotments at Council's cemeteries for immediate use should be addressed through a registered Funeral Director. Purchasing of Interment rights for pre-need reservations of allotments should be discussed with Council directly.
- b. Council cemeteries allow for interments into allotments in two types of areas. These are:
  - a. **Monumental Areas:** allows for the erection of a full monument over the entire allotment by a monumental mason or suitably qualified person upon written application to Council.
  - b. **Lawn Beam Areas:** allows for the erection of a headstone or pedestal and plaque only by a monumental mason upon written application to Council. All monument work must be fully contained on the concrete beam and within the width of the allotment. It is prohibited to plant any tree, shrub, plant or leave glass, wire or like items including solar lights on the grass burial area of a grave in a lawn section of a cemetery.
- c. All interment and reservation fees are reviewed and set by Council annually.
- d. For burial allotments, an additional fee is payable for non-residents of Wingecarribee Shire. 50% of the applicable fee for an Interment Right will be added to any fees for interment of a deceased person who was not a resident of the Wingecarribee Shire at the time of his/her death.
- e. The Interment Right allows for an interment in a specific grave or burial site and does not transfer any equity or ownership of cemetery land to the holder of an Interment Right.
- f. A perpetual Interment Right will be issued by Council upon completion of a written application form to Council and payment of the relevant fee.
- g. Interment Rights may be transferred to another person upon completion of the appropriate application. Please contact Council directly.
- h. All first interments will be to a maximum depth and facilitate a second interment (with appropriate application and payment of fees) unless ground conditions are prohibitive.
