Card/s expiry date: _____

Date Paid _____ Total Amount Paid \$_____

Receipt no _____ Consumers Number _____

Card ID No 1 _____ Card ID No 2 _____

Card ID No 3 _____ Card ID No 4 _____

CONDITIONS OF APPROVAL**Water Carters Supplying Water for Drinking Purposes**

1. Drinking Water carters are required to establish and adhere to a Quality Assurance Program. NSW Health may review the quality assurance program at any time. The quality assurance program is required to address the elements of the Framework for Management of Drinking Water Quality within the *Australian Drinking Water Guidelines*. A copy of your Quality Assurance Program must be submitted to the local Public Health Unit by September 2014.
2. A Drinking Water Carter must keep a logbook to record information on water deliveries and cleaning, as per the requirements of the NSW Guidelines for Water Carters and the Public Health Act 2010. Records must be retained for at least 6 months.
3. A water carting vehicle must have an aperture that is large enough to enable easy inspection and thorough cleaning of the interior and must have a cover that is able to be kept clean.
4. The water carting vehicle, equipment, and records may be inspected by Council under the provisions of either the Local Government Act or Food Act, and an inspection fee may be applicable.
5. Water must be kept in a potable condition from source to supply. A water carting vehicle must be kept in a clean and sanitary condition. If water contains any foreign matter it may be classed as unsafe or unsuitable for its intended use. If a supplier sells unsafe water, an offence may have been committed.

Access to Water Filling Station Compound

Upon purchase, a code for the compound combination lock is provided on the waterworks card.

To gain access, enter the four digit code to open the lock.

The user must ensure the Water Filling Station Compound is locked up and left secure after use.

Faults or Damage to Water Filling Station

Users must contact Council immediately if:

- The user is unable to gain access through the gate (lock jammed, faulty or other damage)
- The user is unable to draw water due to an operational fault.
- The user notes damage to the compound or any of its components.

Waterworks Cards

Your waterworks card:

- Allows you to access the amount of water purchased at any of the 6 Filling Stations.
- Needs to be recharged at the Customer Service counter in the Civic Centre (Elizabeth St) Moss Vale when there is only a small amount of credit remaining.

WSC recommend purchasing an extra card and spreading the water volume across two cards, keeping one card for out-of-office-hours operations and weekends.

Waterworks Cards

Your waterworks card:

- Allows you to access the amount of water purchased at any of the 6 Filling Stations.
- Needs to be recharged at the Customer Service counter in the Civic Centre (Elizabeth St) Moss Vale when there is only a small amount of credit remaining.

WSC recommend purchasing an extra card and spreading the water volume across two cards, keeping one card for out-of-office-hours operations and weekends.

Care of Waterworks Card

The card is issued for the primary use of the holder and is not intended to be transferable. The data stored on the card may be corrupted if the card is subjected to extreme hot, cold or magnetic fields.

Lost or Stolen Card

In the event of a lost or stolen card, immediately advise Wingecarribee Shire Council on 48680888.

A replacement card fee applies for each card replaced. Any credit left on a lost or stolen card cannot be re-issued to another card or be refunded.

Water Connection

Water Filling Stations are supplied with a 65mm (2 1/2 inch) STORZ Outlet

In order to draw water from the station hose and attachments of this above size is required.

Moss Vale water filling station at Oldbury Road

HOW TO USE THE WATERWORKS CARD

Waterworks Card

Station Card Reader

STORZ Delivery Outlet

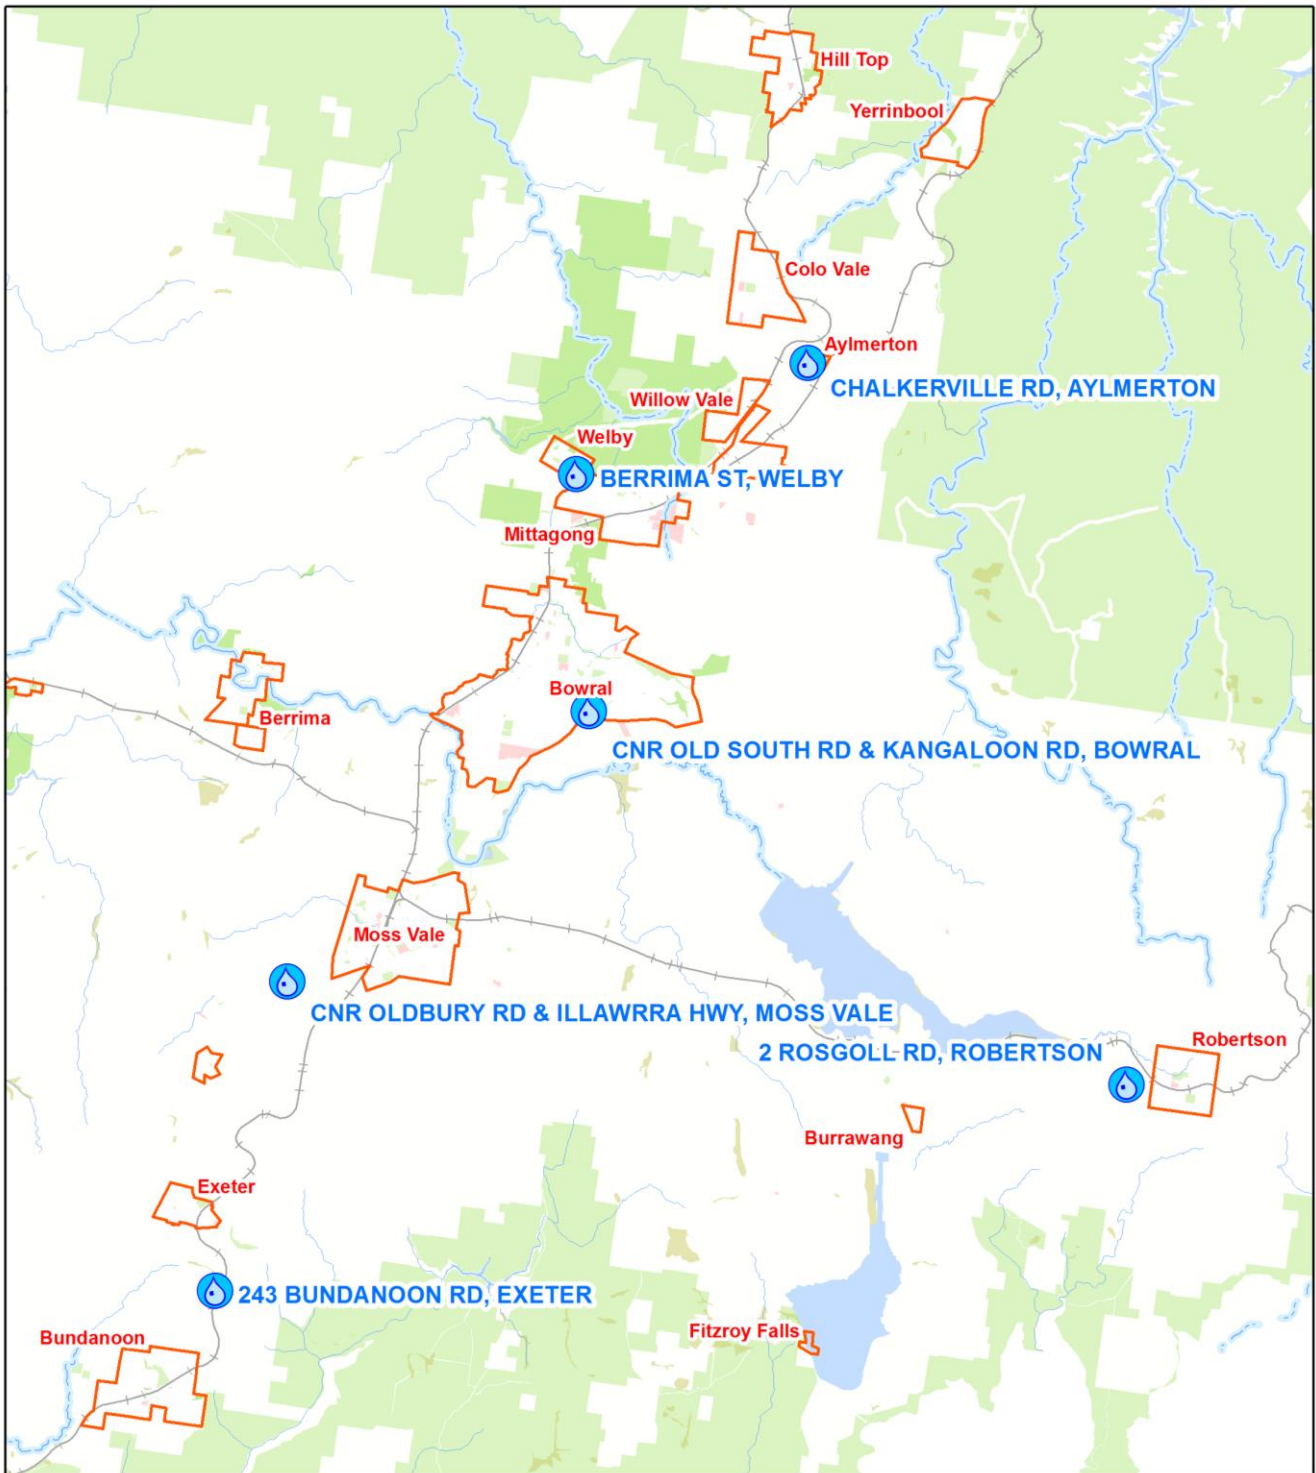

1. Open the upper cover and place the card onto the station card reader panel.
2. The volume on the display shows how much water is available to be drawn from the unit.
3. Open lower panel and connect hose to 65mm Storz outlet. (same fitting as the fire brigade)
4. To start flow, press Black button until desired flow is achieved.
5. To stop flow, press the Red button until the flow has stopped or just take the card away from the unit and the machine will shut down. (To determine the amount of water used take note of the reading on the display and subtract the volume from the original volume).

WATER FILLING STATION SITE LOCATIONS (Refer Map Overleaf)

Water Filling Station locations have been selected with the purpose of providing water to the outer limits of the Shire given constraints of the reticulation's ability to provide reasonable filling pressures and flow.

Locations (from north to south) are as follows:

1. Aylmerton near corner of Chalkerville Road and Hume Highway (near RTA dump site)
2. Welby near corner of Berrima Street and Bendooley Street (outside RTA depot)
3. Bowral near corner of Kangaloon Road and Old South Road (near RTA dump site)
4. Moss Vale near corner of Oldbury Road and Illawarra Highway (outside WSC Pumpstation)
5. Robertson near corner of Rossgoll Road and Illawarra Highway (600m west of railway line)
6. Exeter near corner of Bundanoon Road and Ringwood Road (near electrical substation)
