**Subject:** Submission to be considered at Council meeting 21 Feb, 2024

**Categories:** Jesse

We understand at the Council meeting due on 21st February, 2024 that the Council will be considering changing the curbside hard rubbish collection from scheduled dates to by appointment.

Under the current arrangement of scheduled dates the hard rubbish is out on naturestrips for a short period of time. Neighbours collect other people's rubbish which they might like the look of or are in need of thus reducing the amount of rubbish going to landfill. Far better environmentally to recycle rubbish.

Collection by appointment means that rubbish will be lying around constantly, which will spoil the well maintained naturestrips and home entrances. Recycling into other people's homes is less likely to happen because of the unknown collection dates within the neighbourhood. Therefore more rubbish to landfill.

Please keep hard rubbish curbside collection under the current arrangement with set dates.

Kind regards

Mike and Penny Wilson, [REDACTED]
