

Template – Recording form: Nest box monitoring

Use the below template when you undertake routine monitoring of a nest box(es). This recording form is only an example and you may find that you need to record additional information – so adjust accordingly. By adding this data to an Excel spreadsheet, you will be able to see nest box visitation changes/ trends overtime.

Nest box visit							
Landowner name and Site name				Weather			
Recorder's name				Contact number			
Date of inspection				Start and end time of inspection			
Other information (e.g. hollows observed)							
Nest box #	GPS Location (latitude/longitude)	Animal Present?					Other nest box notes (e.g. maintenance required, take down due to pest species, removed)
		Species	# of individuals	Notes (e.g. breeding pair, nestlings observed, scats)	Photo #	Photo submitted to Nature Map? (Y/N)	

Working with you
