

Moss Vale Station and Stabling Yard Upgrade

Community notification

May 2024

Transport for NSW acknowledges the Traditional Custodians of the lands on which we work and pays respect to Elders past and present.

The NSW Government is delivering an upgrade to Moss Vale Station and Stabling Yard to achieve Disability Standards for Accessible Public Transport 2002 (DSAPT) compliance and to accommodate the new Regional Rail fleet.

The project aims to make public transport safer, more inclusive and easier for all passengers to use, especially people with disabilities, older people, people with prams or luggage, and others with mobility issues.

Upcoming work

Work has begun setting up the main site compound near the commuter car park on Dalys Way. This includes installing site offices and compound facilities.

In June, work includes:

- setting up site compounds on both Argyle Street near Leighton Gardens, and Lackey Road
- delivering materials and equipment for the Mobile Train Simulator, including installing fencing and clearing the area
- installing temporary fencing and barriers for the stabling yard upgrade
- removing vegetation on the railway side of Lackey Road. This will be completed in sections to minimise traffic impacts

We will be using various tools and equipment, including delivery trucks, excavators, powered and manual hand tools.

Working hours

Work will be completed during standard construction hours from **7am to 6pm Monday to Friday** and **8am to 1pm Saturday**.

All work is dependent on weather and site conditions and is subject to change.

Out-of-hours work

We will be working from **7am to 5pm on Saturday 1 June** during a Sydney Trains scheduled trackwork period when no trains will be running, and the station will be closed.

We will be installing temporary conduits on Lackey Road and Argyle Street footbridges ahead of future bridge and lift work.

Hand tools and an elevated work platform will be used, and work will not be noisy.

All work is dependent on weather and site conditions and is subject to change.

Changes to parking

At times, some parking spaces may be unavailable in the commuter car park on Dalys Way while deliveries for the site compound facilities are received.

The site compound on Argyle Street will be set up in the car park near Leighton Gardens. This means all parking spaces in the car park will be unavailable for the duration of the project.

Vegetation trimming/removal

As part of the work taking place on Lackey Road, we will be removing some vegetation from areas around the station and stabling yard. Minor

trimming of two trees on Argyle Street would also be carried out to enable site access and safe construction. Where possible, we will aim to retain as much vegetation as possible and steps will be taken to replace and/or offset any trees that are removed.

Traffic impacts

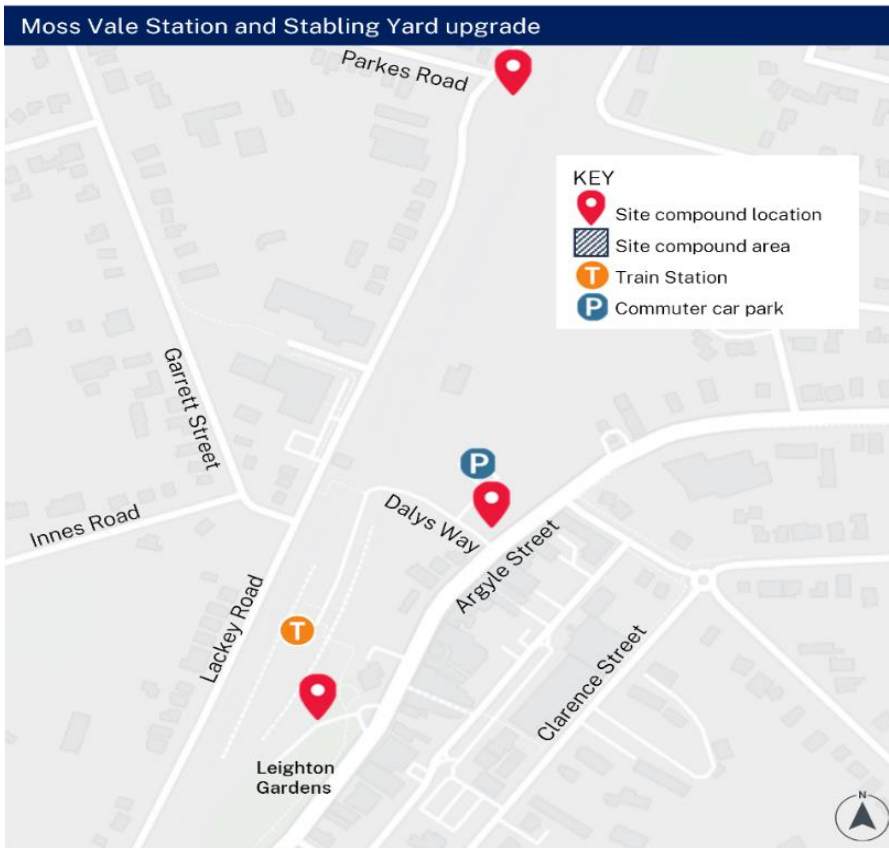

Traffic control will be in place to assist each of the site compound set ups and during vegetation removal on Lackey Road. This is to ensure the safety of workers, passengers and residents.
