Dear Lisa

RE: PENROSE VILLAGE CENTRE PROJECT: PENROSE ROAD PENROSE DRAINAGE

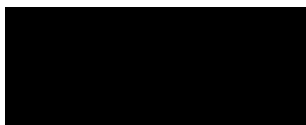

The Penrose Community Association strongly supports plans to improve the centre of the village by kerbing and creating a pinch point in Penrose Road.

This is driven by the need to improve safety by slowing cars going through village centre, better defining road crossing points, improving the bus stop definition, and removing the current step from the bus shelter. Many school children use the bus stop each morning.

The project will also beautify the village Centre and define the centre of village by opening it up to the train station, railway crossing and on to the New Village Hall.

We are pleased to see that Wingecarribee Shire Council has the Penrose Road Penrose Drainage project in it's capital Works 4 Year programme and in the 2024/25 Budget and look forward to working with WSC on this important project.

Yours Sincerely

Alison Duthie
